

Project : **CULTURE LABS**

The Erasmus projects have offered countless young people the opportunity to travel, meet new people and cultures while at the same time they make good use of their skills. We have tried to pinpoint the current needs of our society and reach out to the students in a way that they will find both educative and pleasant. The project is dedicated to students with an intent to inform them about cultural heritage and to show things, usually unavailable when learning just in classrooms, or to emphasize the importance of a certain area of the cultural heritage that might be skipped in school, but it is very important part of our life's. Most importantly this project is aimed at schoolchildren to encourage them to get interested in to the culture and history of their own country as well as the cultural heritage of other European countries. Their traditions are milestones in the creation of today's Europe.
