

## Project : Wonderful Fairy Tales In Kindergarten

By following this project we are entering to a magic world. The magic world of the fairy tales. A world that students like most! Our goal is to create a collection of fairy tales, written and illustrated by the students of different schools of Europe. STEP 1: students get to know each other by exchanging drawings, photos and information about their school STEP 2: each school undertakes to create its own wonderful fairy tale. The story can be original or it can be an adaptation of a well-known fairy tale . The story is illustrated by children. STEP 3: students exchange their stories STEP 4: students create co-operative fairy-tales STEP 5: creation of an e-book by collecting all the wonderful fairy tales..
